WATER DATA HACKATHON IN GEORGIA

July 2-3 2024, Tbilisi

Application form

Calling young innovators to join “Water Data Hackathon in Georgia” to develop digital solutions for water management and citizen engagement in sustainable management of water resources and water conservation in Georgia. The hackathon is co-organised by the European Union (EU4Environment - Water Resources and Environmental Data programme) and USAID-funded South Caucasus Regional Water Management Programme, in collaboration with the Ministry of Environmental Protection and Agriculture of Georgia.
